Subject Index

Hearing

Audiology

Binaural Masking Effects in Bone-Conducted Noise, Fay Doyle Sorenson and Earl D. Schubert, March, 156-167.
Bone Conduction Thresholds for Normal Listeners in Force and Acceleration Units (Research Note), Donald D. Dirks, Candace Kamm, and Samuel Gilman, March, 181-186.
Consonant Confusions in Patients with Sensorineural Hearing Loss, Robert C. Bilger and Marilyn D. Wang, December, 718-748.
Damage Risk: An Evaluation of the Effects of Exposure to 85 versus 90 dBA of Noise, June, 216-224.
Lead and Lag Effects Associated with the Staggered Spondaic Word Test, Barry A. Freeman and Daniel S. Beasley, September, 572-577.
Temporal Acuity in Listeners with Sensorineural Hearing Loss, Walt Jesteadt, Robert C. Bilger, David M. Green, and James H. Patterson, June, 357-370.
Time-Intensity Trade for Speech: A Temporal Speech-Stenger Effect, Michael J. M. Raffin, David J. Lilly and Aaron R. Thornton, December, 749-766.
Use of Low-Pass Noise in Word-Recognition Testing, Ronald L. Cohen and Robert W. Keith, March, 48-54.

Deafness

Assessment of Nasalization in the Speech of Deaf Children, K. N. Stevens, R. S. Nickerson, and A. M. Rollins, June, 393-416.
Complement Structures in the Language of Deaf Students, S. P. Quigley, R. B. Wilbur, and D. S. Montanelli, September, 448-457.
Effects of Sentence Context on Recognition of Words through Lipreading by Deaf Children, Norman P. Erber and De A. McMahan, March, 112-119.
Information Processing of Visually Presented Picture and Word Stimuli by Young Hearing-Impaired and Normal-Hearing Children, Ronald R. Kelly and C. Tomlinson-Keasey, December, 628-638.
Instructed Rehearsal Strategies' Influence on Deaf Memory Processing, John M. Belmont, Michael A. Karchmer, and Paul A. Pilkonis, March, 36-47.
Perceptual Dimensions Underlying Vowel Lipreading Performance, Pamela L. Jackson, Allen A. Montgomery, and Carl A. Binnie, December, 796-812.
Pronominalization in the Language of Deaf Students, R. B. Wilbur, D. S. Montanelli, and S. P. Quigley, March, 120-140.
Second Formant Transitions of Selected Consonant-Vowel Combinations in the Speech of Deaf and Normal-Hearing Children, Randall B. Monsen, June, 279-289.
Some Aspects of the Verb System in the Language of Deaf Students, S. P. Quigley, D. S. Montanelli, and R. B. Wilbur, September, 536-550.

PSYCHOACOUSTICS

Bone Conduction Thresholds for Normal Listeners in Force and Acceleration Units (Research Note), Donald D. Dirks, Candace Kamm, and Samuel Gilman, March, 181-186.
Consonant Confusions in Patients with Sensorineural Hearing Loss, Robert C. Bilger and Marilyn D. Wang, December, 718-748.
Influence of Encoding and Acoustic Similarity on the Ear Advantage and Lag Effect in Dichotic Listening, Robert C. Beiter and Donald J. Sharf, March, 78-92.
The Influence of Selected Masking Noises on Lombard and Sidetone Amplification Effects, Sharon F. Garber, Gerald M. Siegel, Herbert L. Pick, and Stephen R. Alcorn, September, 523-535.
Perceptual Dimensions Underlying Vowel Lipreading Performance, Pamela L. Jackson, Allen A. Montgomery, and Carl A. Binnie, December, 796-812.
Psychometric Functions for Loudness Discomfort and Most Comfortable Loudness Levels, Donald D. Dirks and Candace Kamm, December, 613-627.
Temporal Acuity in Listeners with Sensorineural Hearing Loss, Walt Jesteadt, Robert C. Bilger, David M. Green, and James H. Patterson, June, 357-370.
Time-Intensity Trade for Speech: A Temporal Speech-Stenger Effect, Michael J. M. Raffin, David J. Lilly, and Aaron R. Thornton, December, 749-766.
Time-Intensity Trading Functions for Selected Pure Tones, Lamar L. Young, Jr., March, 55-67.
Use of Low-Pass Noise in Word-Recognition Testing, Ronald L. Cohen and Robert W. Keith, March, 48-54.

Language

APHASIA

Divergent Semantic Behavior in Aphasia, R. Chapey, S. Rigrodsky, and E. B. Morrison, December, 664-677.
Performance of Adult Aphasics on a Sentence Evaluation and Revision Task, Lynn S. Bliss, Arthur M. Guilford, and Ronald S. Tikofsky, September, 551-560.
Rapid Auditory Processing in Normal and Disordered Language Development, Paula Tallal, September, 561-571.

LANGUAGE DEVELOPMENT

Complement Structures in the Language of Deaf Students, S. P. Quigley, R. B. Wilbur, and D. S. Montanelli, September, 448-457.
The Effects of Word Length and Visual Complexity on Verbal Reaction Times, Donald G. Brennan, and Walter L. Cullinan, March, 141-155.
Elicited Imitation of Selected Features of Two American English Dialects in Head Start Children, M. Irene Stephens, September, 493-508.
An Examination of the Semantic Relations Reflected in the Language Usage of Normal and Language-Disordered Children, L. B. Leonard, J. G. Bolders, and Judith A. Miller, June, 371-392.
The Function of Imitation in Child Language, Andrya L. H. Ramer, December, 700-717.
The "Heart" of Categorical Speech Discrimination in Young Infants, Cynthia L. Miller and Philip A. Morse, September, 578-589.
Imitative Modeling as a Theoretical Base for Instructing Language Disordered Children, John A. Courtright and Ilene C. Courtright, December, 655-663.

The Influence of Three Phonological Rules of Black English on the Discrimination of Minimal Word Pairs, Jane Baran and Harry N. Seymour, September, 467-474.
Information Processing of Visually Presented Picture and Word Stimuli by Young Hearing-Impaired and Normal-Hearing Children, Ronald R. Kelly and C. Tomlinson-Keasey, December, 628-638.
Normal and Retarded Children's Understanding of Semantic Relations in Different Verbal Contexts, Judith F. Duchan and Joan G. Erickson, December, 767-776.
Performance of Adult Aphasics on a Sentence Evaluation and Revision Task, Lynn S. Bliss, Arthur M. Guilford, and Ronald S. Tikofsky, September, 551-560.
Pronominalization in the Language of Deaf Students, R. B. Wilbur, D. S. Montanelli, and S. P. Quigley, March, 120-140.
Rapid Auditory Processing in Normal and Disordered Language Development, Paula Tallal, September, 561-571.
Recognition of Verbal Labels of Pictured Objects and Events by 17-30 Month-Old Infants, Leila Beckwith and Spencer K. Thompson, December, 690-699.
Semantic Relations Used by Normal and Language-Impaired Children at Stage I, Patricia P. Freedman and Robert L. Carpenter, December, 784-795.
Some Aspects of the Verb System in the Language of Deaf Students, S. P. Quigley, D. S. Montanelli, and R. B. Wilbur, September, 536-550.

Other

The Effects of Word Length and Visual Complexity on Verbal Reaction Times, Donald G. Brennan and Walter L. Cullinan, March, 141-155.

Speech

Anatomy and Physiology

Additional Observations on Responses to Resistive Loading of the Jaw (Letter to the Editor), J. W. Folkins and J. H. Abbs, December, 820-821.
Anatomical and Neuromuscular Maturation of the Speech Mechanism: Evidence from Acoustic Studies (Tutorial), R. D. Kent, September, 421-447.
A Cineradiographic Study of Articulation in Two Talkers with Temporarily Induced Oral Sensory Deprivation, Anne H. B. Putnam and Robert L. Ringel, June, 247-266.
Dynamics of the Chest Wall during Speech Production: Function of the Thorax, Rib Cage, Diaphragm, and Abdomen, Thomas J. Hixon, Jere Mead, and Michael D. Goldman, June, 297-356.
Effect of a Dental Prosthesis on Speaker-Specific Characteristics of Voice, Sandra L. Hamlet, Virginia C. Geoffrey, and Dean M. Bartlett, December, 639-650.

Articulation Disorders

The Effects of Stimulability on the Articulation of /s/ Relative to Cluster and Word Frequency of Occurrence, W. H. Moore, Jr., John Burke, and Chris Adams, September, 458-466.
Second Formant Transitions of Selected Consonant-Vowel Combinations in the Speech of Deaf and Normal-Hearing Children, Randall B. Monsen, June, 279-289.

Speech and Voice Science

Additional Observations on Responses to Resistive Loading of the Jaw (Letter to the Editor), J. W. Folkins and J. H. Abbs, December, 820-821.

Anatomical and Neuromuscular Maturation of the Speech Mechanism: Evidence from Acoustic Studies (Tutorial), R. D. Kent, September, 421-447.
Application of Regression Analysis Concepts to Retrospective Research in Speech Pathology (Tutorial), Martin A. Young, March, 5-18.
Assessment of Nasalization in the Speech of Deaf Children, K. N. Stevens, R. S. Nickerson, A. Boothroyd, and A. M. Rollins, June, 393-416.
A Cineradiographic Study of Articulation in Two Talkers with Temporarily Induced Oral Sensory Deprivation, Anne H. B. Putnam and Robert L. Ringel, June, 247-266.
A Comparison of the Contributions of Two Voice Quality Characteristics to the Perception of Maleness and Femaleness in the Voice, Ralph O. Coleman, March, 168-180.
Development of the Voicing Contrast: A Comparison of Voice Onset Time in Stop Perception and Production, Marsha A. Zlatin and Roy A. Koenigsknecht, March, 93-111.
Dynamics of the Chest Wall during Speech Production: Function of the Thorax, Rib Cage, Diaphragm, and Abdomen, Thomas J. Hixon, Jere Mead, and Michael D. Goldman, June, 297-356.
Effect of a Dental Prosthesis on Speaker-Specific Characteristics of Voice, Sandra L. Hamlet, Virginia C. Geoffrey, and Dean M. Bartlett, December, 639-650.
The Effects of Word Length and Visual Complexity on Verbal Reaction Times, Donald G. Brennan and Walter L. Cullinan, March, 141-155.
An Electromyographic Study of Velopharyngeal Function in Speech, Fredericka Bell-Berti, June, 225-240.
Erratum, Herbert A. Leeper, Jr. and Franklin J. Appl, March, 191.
The "Heart" of Categorical Speech Discrimination in Young Infants, Cynthia L. Miller and Philip A. Morse, September, 578-589.
INDSCAL Analysis of Perceptual Judgments for 24 Consonants via Visual, Tactile, and Visual-Tactile Inputs, Jeffrey L. Danhauer and Margret A. Appel, March, 68-77.
The Influence of Selected Masking Noises on Lombard and Sidetone Amplification Effects, Sharon F. Garber, Gerald M. Siegel, Herbert L. Pick, and Stephen R. Alcorn, September, 523-535.
Motor Impairment following Blockade of the Infraorbital Nerve: Implications for the Use of Anesthetization Techniques in Speech Research, James H. Folkins, John W. Folkins, and Murali Sivarajan, March, 19-35.
A New Technique for Measuring Velopharyngeal Orifice Area during Sustained Vowel Production: An Application of Aerodynamic Forced Oscillation Principles (Research Note), Thomas J. Hixon, Diane M. Bless, and Ronald Netsell, September, 601-607.
Vowel Duration Characteristics of Esophageal Speech, John M. Christensen and Bernd Weinberg, December, 678-689.

STUTTERING

The Ability of Stutterers and Nonstutterers to Initiate and Terminate Phonation During Production of an Isolated Vowel, Martin R. Adams and Paul Hayden, June, 290-296.
Auditory Assembly Abilities of Stuttering and Nonstuttering Children, Walter H. Manning and Linda Riensche, December, 777-783.
Comments on Speech Fluency Fluctuations during the Menstrual Cycle (Letter to the Editor), Howard Giles and Jennifer A. Giles, March, 187-188.
Factors Contributing to the Reduction of Stuttering during Singing, E. Charles Healey and A. R. Mallard, III, September, 475-480.
The Influence of Duration on the Effects of Time-Out from Speaking, Jack E. James, June, 206-215.
Latency of Vocalization Onset: Stutterers Versus Nonstutterers, C. Woodruff Starkweather, Paula Hirschman, and Robert S. Tannenbaum, September, 481-492.
Pretreatment Factors Associated with the Outcome of Stuttering Therapy, Barry Guitar, September, 590-600.
Reply to Giles and Giles (Letter to the Editor), Ellen-Marie Silverman and Catherine H. Zimmer, March, 189-190.
Self- versus Investigator-Administered Presumed Fluency Reinforcing Stimuli, Douglas E. Cross and Eugene B. Cooper, June, 241-246.

Some Relationships Between Punishment, Stuttering, and Galvanic Skin Responses, Charles G. Reed and James B. Lingwall, June, 197-205.
Stuttering: Discoordination of Phonation with Articulation and Respiration, William Perkins, Joanna Rudas, Linda Johnson, and Jody Bell, September, 509-522.
Stuttering and Sentence Length, Gaye B. Tornick and Oliver Bloodstein, December, 651-654.
Traits Attributed to Stuttering and Normally Fluent Males, C. Lee Woods and Dean E. Williams, June, 267-278.
Word Frequency and Stuttering: The Relationship to Sentence Structure, Irwin Ronson, December, 813-819.

Voice Disorders

Vowel Duration Characteristics of Esophageal Speech, John M. Christensen and Bernd Weinberg, December, 678-689.

Title Index

The Ability of Stutterers and Nonstutterers to Initiate and Terminate Phonation During Production of an Isolated Vowel, Martin R. Adams and Paul Hayden, June, 290-296.
Additional Observations on Responses to Resistive Loading of the Jaw (Letter to the Editor), J. W. Folkins and J. H. Abbs, December, 820-821.
Anatomical and Neuromuscular Maturation of the Speech Mechanism: Evidence from Acoustic Studies (Tutorial), R. D. Kent, September, 421-447.
Application of Regression Analysis Concepts to Retrospective Research on Speech Pathology (Tutorial), Martin A. Young, March, 5-18.
Assessment of Nasalization in the Speech of Deaf Children, K. N. Stevens, R. S. Nickerson, A. Boothroyd, and A. M. Rollins, 393-416.
Auditory Assembly Abilities of Stuttering and Nonstuttering Children, Walter H. Manning and Linda Riensche, December, 777-783.
Binaural Masking Effects in Bone-Conducted Noise, Fay Doyle Sorenson and Earl D. Schubert, March, 156-167.
Bone Conduction Thresholds for Normal Listeners in Force and Acceleration Units (Research Note), Donald D. Dirks, Candace Kamm, and Samuel Gilman, March, 181-186.
A Cineradiographic Study of Articulation in Two Talkers with Temporarily Induced Oral Sensory Deprivation, Anne H. B. Putnam and Robert L. Ringel, June, 247-266.
Comments on Speech Fluency Fluctuations during the Menstrual Cycle (Letter to the Editor), Howard Giles and Jennifer A. Giles, March, 187-188.
A Comparison of the Contributions of Two Voice Quality Characteristics to the Perception of Maleness and Femaleness in the Voice, Ralph O. Coleman, March, 168-180.
Complement Structures in the Language of Deaf Students, S. P. Quigley, R. B. Wilbur, and D. S. Montanelli, September, 448-457.
Consonant Confusions in Patients with Sensorineural Hearing Loss, Robert C. Bilger and Marilyn D. Wang, December, 718-748.
Damage Risk: An Evaluation of the Effects of Exposure to 85 versus 90 dBA of Noise, James T. Yates, Jerry D. Ramsey, and Jay W. Holland, June, 216-224.
Development of the Voicing Contrast: A Comparison of Voice Onset Time in Stop Perception and Production, Marsha A. Zlatin and Roy A. Koenigsknecht, March, 93-111.
Divergent Semantic Behavior in Aphasia, R. Chapey, S. Rigrodsky, and E. B. Morrison, December, 664-677.
Dynamics of the Chest Wall during Speech Production: Function of the Thorax, Rib Cage, Diaphragm, and Abdomen, Thomas J. Hixon, Jere Mead, and Michael D. Goldman, June, 297-356.
Effect of a Dental Prosthesis on Speaker-Specific Characteristics of Voice, Sandra L. Hamlet, Virginia C. Geoffrey, and Dean M. Bartlett, December, 639-650.

Effects of Sentence Context on Recognition of Words through Lipreading by Deaf Children, Norman P. Erber and De A. McMahan, March, 112-119.
The Effects of Stimulability on the Articulation of /s/ Relative to Cluster and Word Frequency of Occurrence, W. H. Moore, Jr., John Burke, and Chris Adams, September, 458-466.
The Effects of Word Length and Visual Complexity on Verbal Reaction Times, Donald G. Brennan and Walter L. Cullinan, March, 141-155.
An Electromyographic Study of Velopharyngeal Function in Speech, Fredericka Bell-Berti, June, 225-240.
Elicited Imitation of Selected Features of Two American English Dialects in Head Start Children, M. Irene Stephens, September, 493-508.
Erratum, Herbert A. Leeper, Jr. and Franklin J. Appl, March, 191.
An Examination of the Semantic Relations Reflected in the Language Usage of Normal and Language-Disordered Children, L. B. Leonard, J. G. Bolders, and Judith A. Miller, June, 371-392.
Factors Contributing to the Reduction of Stuttering during Singing, Charles E. Healey and A. R. Mallard, III, September, 475-480.
The Function of Imitation in Child Language, Andrya L. H. Ramer, December, 700-717.
The "Heart" of Categorical Speech Discrimination in Young Infants, Cynthia L. Miller and Philip A. Morse, September, 578-589.
Imitative Modeling as a Theoretical Base for Instructing Language Disordered Children, John A. Courtright and Illene C. Courtright, December, 655-663.
INDSCAL Analysis of Perceptual Judgments for 24 Consonants via Visual, Tactile, and Visual-Tactile Inputs, Jeffrey L. Danhauer and Margret A. Appel, March, 68-77.
The Influence of Duration on the Effects of Time-Out from Speaking, Jack E. James, June, 206-215.
Influence of Encoding and Acoustic Similarity on the Ear Advantage and Lag Effect in Dichotic Listening, Robert C. Beiter, and Donald J. Sharf, March, 78-92.
The Influence of Selected Masking Noises on Lombard and Sidetone Amplification Effects, Sharon F. Garber, Gerald M. Siegel, Herbert L. Pick, and Stephen R. Alcorn, September, 523-535.
The Influence of Three Phonological Rules of Black English on the Discrimination of Minimal Word Pairs, Jane Baran and Harry N. Seymour, September, 467-474.
Information Processing of Visually Presented Picture and Word Stimuli by Young Hearing-Impaired and Normal-Hearing Children, Ronald R. Kelly and C. Tomlinson-Keasey, December, 628-638.
Instructed Rehearsal Strategies' Influence of Deaf Memory Processing, John M. Belmont, Michael A. Karchmer, and Paul A. Pilkonis, March, 36-47.
Latency of Vocalization Onset: Stutterers Versus Nonstutterers, C. Woodruff Starkweather, Paula Hirschman, and Robert S. Tannenbaum, September, 481-492.
Lead and Lag Effects Associated with the Staggered Spondaic Word Test, Barry A. Freeman and Daniel S. Beasley, September, 572-577.
Motor Impairment following Blockade of the Infraorbital Nerve: Implications for the Use of Anesthetization Techniques in Speech Research, James H. Abbs, John W. Folkins, and Murali Sivarajan, March, 19-35.
A New Technique for Measuring Velopharyngeal Orifice Area during Sustained Vowel Production: An Application of Aerodynamic Forced Oscillation Principles (Research Note), Thomas J. Hixon, Diane M. Bless, and Ronald Netsell, September, 601-607.
Normal and Retarded Children's Understanding of Semantic Relations in Different Verbal Contexts, Judith F. Duchan, and Joan G. Erickson, December, 767-776.
Perceptual Dimensions Underlying Vowel Lipreading Performance, Pamela L. Jackson, Allen A. Montgomery, and Carl A. Binnie, December, 796-812.
Performance of Adult Aphasics on a Sentence Evaluation and Revision Task, Lynn S. Bliss, Arthur M. Guilford, and Ronald S. Tikofsky, September, 551-560.
Pretreatment Factors Associated with the Outcome of Stuttering Therapy, Barry Guitar, September, 590-600.
Pronominalization in the Language of Deaf Students, R. B. Wilbur, D. S. Montanelli, and S. P. Quigley, March, 120-140.

Psychometric Functions for Loudness Discomfort and Most Comfortable Loudness Levels, Donald D. Dirks and Candace Kamm, December, 613-627.
Rapid Auditory Processing in Normal and Disordered Language Development, Paula Tallal, September, 561-571.
Recognition of Verbal Labels of Pictured Objects and Events by 17-30 Month-Old Infants, Leila Beckwith and Spencer K. Thompson, December, 690-699.
Reply to Giles and Giles (Letter to the Editor), Ellen-Marie Silverman and Catherine H. Zimmer, March, 189-190.
Second Formant Transitions of Selected Consonant-Vowel Combinations in the Speech of Deaf and Normal-Hearing Children, Randall B. Monsen, June, 279-289.
Self- versus Investigator-Administered Presumed Fluency Reinforcing Stimuli, Douglas E. Cross and Eugene B. Cooper, June, 241-246.
Semantic Relations Used by Normal and Language-Impaired Children at Stage I, Patricia P. Freedman and Robert L. Carpenter, December, 784-795.
Some Aspects of the Verb System in the Language of Deaf Students, S. P. Quigley, D. S. Montanelli, and R. B. Wilbur, September, 536-550.
Some Relationships Between Punishment, Stuttering, and Galvanic Skin Responses, Charles G. Reed and James B. Lingwall, June, 197-205.
Stuttering and Sentence Length, Gaye B. Tornick and Oliver Bloodstein, December, 651-654.
Stuttering: Discoordination of Phonation with Articulation and Respiration, William Perkins, Joanna Rudas, Linda Johnson, and Jody Bell, September, 509-522.
Temporal Acuity in Listeners with Sensorineural Hearing Loss, Walt Jesteadt, Robert C. Bilger, David M. Green, and James H. Patterson, June, 357-370.
Time-Intensity Trade for Speech: A Temporal Speech-Stenger Effect, Michael J. M. Raffin, David J. Lilly, and Aaron Thornton, December, 749-766.
Time-Intensity Trading Functions for Selected Pure Tones, Lamar L. Young, Jr., March, 55-67.
Traits Attributed to Stuttering and Normally Fluent Males, C. Lee Woods and Dean E. Williams, June, 267-278.
Use of Low-Pass Noise in Word-Recognition Testing, Ronald L. Cohen and Robert W. Keith, March, 48-54.
Vowel Duration Characteristics of Esophageal Speech, John M. Christensen and Bernd Weinberg, December, 678-689.
Word Frequency and Stuttering: The Relationship to Sentence Structure, Irwin Ronson, December, 813-819.
